

# Introducing the ASP Origin Panel

## ABOUT THE SERIES

The **Origin Series** was the first access floor system developed in history. The system, with its wood core, has evolved over time to now be a robust panel which allows a functional and efficient access floor solution.

## ORIGIN PANEL

This steel wrapped **Origin Panel** is a composition panel with a composition particleboard core. The core is wrapped with galvanized steel, creating a strong durable panel suitable for commercial environments.

## THE PANEL CONSTRUCTION

**SIZE** 600mm x 600mm

**DEPTH**

Medium Grade 30.6mm

Heavy 30.8mm

Extra Heavy Grade 31.2mm

**CONSTRUCTION**

The panel is constructed from a lower sheet of die formed steel with corrosion resistant protection, inside and out, encapsulating a composition wood core. A top sheet of steel is then positioned and the edges are folded and pressed to overlap the lower case

**CORE** High Density Particleboard

**TOLERANCE**

$\pm 0.25\text{mm}$  and a flatness tolerance of  $\pm 0.5\text{mm}$  measured on a diagonal across the top of the panel

**FINISH**

Galvanised Steel

**CONNECTION**

The panel is screw fixed to the pedestal head at all four corners be screw fixed to the pedestal head at all four corners

Moulded galvanised steel top plate

Wood Core

Moulded galvanised steel bottom plate

### LOAD TOLERANCES

Medium Grade

Heavy Grade

Extra Heavy Grade

Industrial Grade

Heavy Industrial Grade

Super Heavy Industrial Grade

# Origin X

## ABOUT THE SYSTEM

The **Origin X System** is an alternate system to Icon X for commercial environments. It is widely used for power and data cable management.

## APPLICATIONS

- Commercial Office Building
- Banks
- Learning Institutions
- Libraries
