

# Icon Data HPL

**Icon Data HPL** is a finished system providing static-dissipative commercial access floor panels. Anti-static, protective and risk reducing, these panels are suitable for commercial environments such as data centres, communication rooms, or other applications requiring ESD (electro-static discharge) properties. These panels allow an integrated floor finish whilst maintaining the functionality of an access floor with 100% underfloor accessibility.

The HPL is prefinished onto a 600x600mm access floor panel, ensuring that your design maintains functional accessibility to the services in the underfloor space such as power, data, fire and hydraulics.

The **HPL Colour Hub** is a great starting point to choosing the best finish for your design. However, if you are looking for something different, we are happy to work with you to design a specifically designed panel for your project.

- 

**Permanent antistatic properties**
- 

**Easy to maintain**
- 

**Good dimensional stability**
- 

**Easy to clean**
- 

**Floorscore Certified**
- 

**Non-toxic**
- 

**Slip-resistance**
- 

**Non-allergenic**
- 

**Durable and strong**
- 

**Chemically inert**
