

Hermès

155 King Street

Sydney NSW

Project Exclusive

Hermès, a brand of luxury with a Sydney store to match. 155 King Street Hermès, a bright, airy space with stunning heritage framed windows, which fill the marble filled space with light.

The focal point of the store is the opulent, winding staircase. Crafted by hand, it provides a gravitation pull into the heart of the store.

The Hermès store occupies the ground and lower ground floors of the Trust Building, built between 1914 and 1916. Originally home of The Daily Telegraph, the new Hermès store opening in 2020 brought a whole new life and luxury to 155 King Street.

THE WHO'S WHO

ARCHITECT

Interni Architecture NSW

BUILDER

FDC Constructions NSW

The Access Floor Scoop

155 King Street Hermès store houses 350m² of ASP's Urban Interlock system. Chosen for its interlock edge profile which ensures the panels are locked together, eliminating movement.

This product aligned with the builders plans in covering our Urban Interlock panels with liquid stone after install. Urban Interlock provided a solid raised structure which will prevent cracking for the future.

9.0kn Urban Interlock panels were selected as it can withstand the flooring finishes and future movements without restrictions.

Sustainability Trends

Did You Know

Urban Interlock contributes significantly to Green Star & LEED requirements through a completed product LCA & EPD.

350m² of **Urban Interlock**.

Featured Products

URBAN INTERLOCK

(350m²)

Urban Interlock has been designed for applications where stone or tile finishes are to be applied. This panels specially designed interlock edge profile ensures panels remain locked together, eliminating movement.
